

Kentucky Junior Academy of Science Delegate Criteria

- Kentucky will send up to 12 delegates to the American Junior Academy of Science (AJAS)
- Eligible students must receive a Thoroughbred ranking for their Oral Presentation
- Up to two top scoring students each from Kentucky's six congressional districts will be selected as Delegates
- If there are no representatives from a district, then the additional students may be chosen from the district where the annual meeting is held
- In the case of a tied score, we may choose a student from a lesser represented KAS Division (Physical Science, Biological Science, Social Science)

KAS will provide chaperones for students. Students do not need to bring a chaperone with them and KAS will not pay for additional chaperones. KAS is paying for Delegates' AJAS Registration, travel and hotel costs.
