

Publish in the *Journal of the Kentucky Academy of Science!*

- The *Journal of the Kentucky Academy of Science* has been published continuously since the Academy's founding in 1914.
- The *Journal* accepts papers in the STEM disciplines, the Social Sciences, and Science Education.
- The *Journal* accepts papers based on research both within and outside of Kentucky.
- Manuscripts are considered throughout the year and are published digitally using an issue-in-progress model.
- The *Journal* is fully refereed by peer-reviewers.
- The *Journal* has separate editors for the STEM disciplines and for the Social Sciences and Science Education, so that your paper goes to the appropriate reviewers.
- We consider high-quality papers from students and professionals for review and publication.
- *Journal* papers are nationally indexed by BioOne, ProQuest, and Biodiversity Heritage Library, Web-based collections of full-text, high-impact, bioscience, research journals.
- *Journal* papers indexed in BioOne earn support for the Academy and its activities.
- The *Journal* publishes: Research Articles, Review Articles, Opinions, Book Reviews, and Notes, and accepts proposals for theme issues.
- *Journal* papers are freely available to KAS members.
